The Daily Press.

HONGKONG, JANUARY 29TH, 1870.

In consequence of Monday being China New Year's Day, there will not be an issue of this journal that morning.

MR. HENRY CALDWELL has addressed a letter to this paper, requesting that he may be furnished with the names of those who were alluded to as having given information as to their impressions respecting the alleged confession of the men, who were condemned in reference to the Sowkeewan murder. While it is felt that the enquiry which MR. CALDWELL makes is one not only natural, but proper on his part, it will be easily understood that it is impossible, without a breach of confidence, to give up the authorities for newspaper information. It is right, however, to state that the opinion given utterance to as to the probability of the admission having been made, was arrived at after very careful enquiry, and was expressed only with the object of directing such attention to the subject as might lead, if possible, to the merits of the question being placed beyond a doubt.

It will be generally regarded with satisfaction that the Chamber of Commerce yesterday came to the decision to lend their support to the expedition proposed to be undertaken by Mr. Moss, with the object of obtaining information concerning the prospects of trade in the interior of China. Although there were differences of opinion upon individual points, the feeling at the meeting evidently was very greatly in favour of the expedition being started. The remarks by Mr. PYKE, whose observations upon public questions are always weighty and practical, to the effect that the merchants in China could not expect the Home Government to act in accordance with their wishes, unless they furnished them with the necessary information, were specially deserving of attention. There is no doubt that, as stated by Mr. GRANT DUFF in the passage which Mr. PYKE quoted, what the British Government requires is information. Upon general considerations and questions of policy, they consider themselves, as they have the right to do, the best judges; but upon questions of fact they cannot but be sensible of the weight that must of necessity attach to the testimony of those who have personally taken the trouble to investigate the actual state of affairs in the country. In addition to the bare furnishing of facts, what is required to move the Home Government is a display of earnestness, and nothing can better demonstrate that the mercantile community are in earnest in their desire to see commerce furthered in these parts, than they should send their own delegates to obtain the necessary information. However desirable, therefore, in some respects, the suggestion put forward by Mr. WALKER, as to obtaining information from the Missionaries may be, it would fail in one of the chief objects which the Chamber of Commerce have in view; and in addition to this consideration against it, it cannot be overlooked that Missionaries are certainly not the best sources from which to obtain information on commercial matters. The chief objection of those who were adverse to the scheme, therefore, resolved itself into what was urged on the score of Mr. Moss' not being acquainted with the Chinese language, and it must be admitted that this is a subject of regret, though at the same time, there are many reasons why this should not be considered a sufficient reason for setting him aside. It would no doubt be highly desirable, if it were possible, to secure a person who combined a good knowledge of business with an acquaintance with the language; and it may be hoped the time will not be very far distant when a knowledge of Chinese will be more common among mercantile men—but it would probably be very difficult, if not indeed impossible, to find such a person at present, and there can be no question that for a commercial expedition an intimate and practical acquaintance with business is a first essential. A great deal of very valuable information has often been furnished by travellers who could not speak Chinese, and it seems hardly possible to doubt that it is better, for a commercial expedition, to choose a mercantile man who knows nothing of business. The observation of Mr. DAVIS, though not quite accurately expressed, was to the point on this portion of the subject. It would be very difficult to find any one who would not be necessarily dependent to a great extent upon interpreters when seeking detailed information, as the variations in the local dialects are such that interpreters of some kind would often have to be used, even as in many places few but officials would be found who comprehended it. No doubt the knowledge of a certain insight into matters, and afford a means of intercommunication would not entirely do away with the necessity of getting information in many cases through interpreters. Care in selection of the Chinese linguist accompanying the expedition will, however, go far towards mitigating the effects of this drawback.

It may fairly be hoped that the Community will follow the action of the Chamber of Commerce in giving their support to the project which is in hand, and which, apart from the information, which it will doubtless benefit in calling the attention of the Government to the advantages to be gained by furthering foreign trade in these parts, and will go far to remove many of the misapprehensions which now exist. It cannot be doubted that very much will be done by a step of this kind towards reviving interest in Chinese matters at home, and there is equally no question that it is only by arousing such interest that there is any hope of inducing the Home Authorities to adopt a sounder commercial policy in these parts.

It would not be right to conclude these remarks without noticing the manly and dignified manner in which the Chairman of the Chamber, the Hon. MR. KEWICK, rebutted some rather uncalled for, and certainly ill-advised, remarks upon MR. MOSS' action at one period of his career in Japan. The Chairman at once declared he was in Japan at the time of the occurrence, and he felt bound, in the interests of justice, to say that he was opinion that in this matter, MR. MOSS had been a martyr to a course of proceeding antagonistic to the liberty of every foreigner in that country, and that this blame should be cast on those who brought him into that position, and who deserved to be strictly censured. The action of the Chairman in making this declaration is deserving of the highest praise, and cannot fail to be appreciated, no less as being highly creditable to his sense of honour, than as the means of removing a hard and false impression, which still existed in some quarters with regard to the occurrence.

The *Fusiyama* brings the following item of interest respecting the working of coal mines in Japan:—Messrs. Glover and Co.'s Takashima coal mine promises to be a great success. Under the supervision of European miners, and with the aid of powerful machinery, a hundred tons of coal are being landed on the surface daily, and the manager reports sufficient fuel burning out to hourly as much as four hundred tons per diem. The shaft is 150 feet deep, and there are two seams of coal, 6 and 9 feet in thickness. The quantity of coal is inexhaustible, and the quality is simply super-excellent. The development of this mine must preclude the necessity in future of importing any foreign soft coal on this coast.

FIRE AT YOKOHAMA.

The steamer *Nymph*, which arrived here yesterday from Yokohama, brings news of the large fires at that port on the morning of the 13th instant. Between nine and ten o'clock one was observed from the steamer, and shortly afterwards another was reported from a different point. Both were large fires, and one of them proved to be on the premises of the Chartered Mercantile Bank. The extent of damage done is not known, as the *Nymph* left for Hongkong early on the morning of the 19th.

POLICE INTELLIGENCE.

BEFORE C. MAY, ESQ.
January 29th.

THE GALATEA'S CARGO.

Four Chinamen were brought up and charged with receiving certain bonded goods, forming part of the cargo of the American ship *Galena*, from certain seamen, who are charged with plundering the same. One of these men was prosecuted and was said to be the one mentioned by the last witness in the case against Ballmon, on the 27th. They were remanded till to-morrow.

DRUNKENNESS.

David Brown, an old frequenter of the police court, was brought up for being drunk and incapable in the public streets, and was fined 50 cents.

REFUSAL TO PAY CHAIR HIRE.

Alexander Watt was charged with being drunk, and refusing to pay chair-hire. The chair had been engaged by him at 7 o'clock on the evening of the 28th, and he retained the chair the whole night, and he refused to pay it when it was given in glorious encampment at 8 o'clock. He was fined 30 cents, and charged to pay 60 cents to the chair coolie.

REFUSING TO QUIT WITHOUT LICENSE.

Ng-Ayan was charged on a warrant with retailing opium without a license. The information was laid by Tso-a-hang, an opium farmer, and on this warrant Ng-Ayan was arrested on information that he had opium from defendant in his shop, No. 31 Square-street, a small quantity of which was found in a cellar under the shop (two of them smoking) by the complainant, in the presence of the defendant. The defence turned on the man's title to sell (denied.) The defendant was fined $25, or by the informer, $50. Defendant was fined $25, or by the informer. Defendant was fined $25, or two months' imprisonment with hard labour.

The information in the former case also included Lum-a-chun, of 14, Taipingshan-street, against whom the informer, Tso-a-hang, had also bought opium, and there were a number of the usual paraphernalia of opium smoking, such as lamps, pipes, &c., found on the premises. Fined $25, or two months' imprisonment with hard labour.

FIGHTING AND DISTURBANCE.

Tse-a-lan, Chun-a-poo, and Lee-a-muh, were charged with fighting and creating a disturbance on the streets. It turned out, however, that the first man had nothing to do with the matter, and he was discharged. The other two were fined 25 Sents each.

ASSAULT.

Cheong-asaow summoned Wo Government boatmen for an assault committed near Sowkeewan. Complainant stated he had been walked over and driven ashore, which these men had spread out to dry, thereby cracking the wrath of those who had wasned it.

His Worship said that if they had been ordinary boatmen he should have fined them only 50 cents each, but inasmuch as they were Government boatmen he would make a distinction. Fined $1 each, and cautioned.

NUISANCE.

Six occupants of houses in Market-street were summoned for having the fronts of their dwellings in a filthy state. They had been cleaned up since the summons was served. Fined 25 cents each.

There were three other similar cases to the above.

VERY ABUSIVE LANGUAGE.

Mr. F. Ribeiro, Jr., clerk to the Hongkong Hotel, charged Mr. George Lawry, bar-keeper at the said Hotel, with having called him a ——, and threatening him with the terrible visitation of breaking his head. A Lascar's connection between the parties had been considered by the Court, and both the complainant and defendant were called on the envelope. Under the cover the complainant had written as follows:—"Will you give apologise written as follows:—"Will you give apologise or not? Ribeiro." Defendant had replied, "No," without being particularly verbose. "No." Defendant in court denied both charges.

Defendant.—I do.

Did you threaten to break his head?

No.

Would you have apologised if you had called him a ——, and threatened to break his head?

Decidedly.

Case dismissed.

NAGASAKI.

The *Post* goes bringing dates from the above port to the 22nd inst. The *Nagasaki Shipping List* of that date notices as a curious incident that both the *Governor Higginson* and the *Jerboa* steamers, which were sent away with the native Christians, after discharging their passengers and cargo, struck upon rocks, the former near Spex Straits and the latter near Hirado. The Japanese firmly believe it is a punishment from God. In the same paper it is stated that the steamer *Coila*, leaving for Hiogo on the afternoon, takes a further shipment of that mine must preclude the necessity one hundred exiled Christians. The *Nagasaki Express*, says that the matter of the deportation of the Christians is so carefully manifested by the Japanese officials, that uncertainty and embarrassment are found at every turn.

THE CHAMBER OF COMMERCE MEETING.

The special Meeting of the Chamber of Commerce called for the purpose of taking into consideration the proposed expedition of Mr. M. Moss into the South of China, was held yesterday afternoon. There were present, Hon. Wm. Keswick, chairman, Hon. F. B. Taylor, Messrs. Zimmern, Pyke, Walker, Bellilios, Vogel, Molachy, Andre, Jones, Coughtrie, Aug. Heard, Arthur and Davis.

The SECRETARY having read the notice convening the meeting, the CHAIRMAN remarked that the subject before the meeting had already been before the Chamber, but that on a previous occasion, after considerable discussion had taken place, it was thought desirable that the matter should have further information as to the expedition to the South of China in its bearings, before any final decision was come to on the matter. Since then, Mr. Moss had published a small pamphlet, and in which he had set out at length the objects of the proposed expedition, and the results to be obtained. The expedition was most important one, and the expense would be considerable, if it was carried out as proposed. The results to be obtained were of great importance, but they were such as would be long delayed in any direct good they might accomplish, instead of being of immediate benefit. With these considerations in view, and also bearing in mind the comparatively limited means of the Chamber, it was his opinion that for the present it would be much better to confine the route to be taken to a province more nearly attached to this colony, and more likely little immediate advantage could be gained by this expedition, the advantages being such as would be felt and realized in the future. As would be felt and realized in the future. but nevertheless they were important in view of the future Government policy to be pursued in China. He thought the meeting should be very careful how they granted with the funds of the community, and it should not be deprived of the only means it possessed without due care and consideration. He hoped there would be the fullest discussion on the subject.

Mr. MEREDITH said that he thought the general opinion was not at all in favor of this expedition, one of the great objections to it being that Mr. Moss was totally unacquainted with the Chinese language. He must, therefore, be entirely dependent upon interpreters for all the information he could get, and it was well known what trouble was experienced from these, even where every facility was given. Even if such an expedition as was proposed should be undertaken by a person understanding Chinese, it would be a work of years of very hard labour to obtain results that could in any way be called satisfactory. He therefore begged leave to offer the following resolution:—"That the expedition of Mr. Moss be not carried out at present."

Mr. DEBIANCO said he had much pleasure in seconding this proposition. He did not mean to infer that if a proper person could be found it would be well and advisable to fit out an expedition, but Mr. Moss was wholly unequal to the task. The Chinese language, and, therefore, he thought the expedition had better be deferred until some proper person could be found possible, from North and South. With regard to the forwarding of samples, there would be no difficulty, as it had repeatedly been done before in the same manner.

REMARKS he begged to concur in the resolution now before the meeting.

Mr. DEBIANCO thought this new plan all the more feasible, because Mr. Moss had already framed a very full series of questions which might be used, with one or two exceptions, which he thought scarcely adapted to be addressed to a missionary.

Mr PYKE here rose and said that no doubt the remarks of Mr. Bellanco were very facetious and amusing, but he regretted very much that Mr. Moss's previous career should have been brought forward to-day, (applause). This gentleman had been very successful in conducting the work done in class. The student has this less encumbered to the Chamber and to place his own before the members. If the Chamber did not wish to send Mr. Moss, he thought it would have been well out at all the thing. It required a man of very great tact, &c., to undertake such an expedition as the one proposed, and he must confess that these were not qualities possessed by Mr. Moss. This gentleman by quoting before the public in this manner, had invited discussion, and he did not therefore see why the members of the Chamber should not speak out their minds. Mr. Moss was ready to give up the antecedents of Mr. Moss was ready to give up the antecedents of his own accord, remarks upon Mr. Moss's action at one period of his career in Japan. The Chairman at once declared he was in Japan at the time of the occurrence, and he felt bound, in the interests of justice, to say that he was opinion that in this matter, Mr. Moss had been a martyr to a course of proceeding antagonistic to the liberty of every foreigner in that country, and that this blame should be cast on those who brought him into that position, and who deserved to be strictly censured. The action of the Chairman in making this declaration is deserving of the highest praise, and cannot fail to be appreciated, no less as being highly creditable to his sense of honour, than as the means of removing a hard and false impression, which still existed in some quarters with regard to the occurrence.

The *Fusiyama* brings the following item of interest respecting the working of coal mines in Japan:—Messrs. Glover and Co.'s Takashima coal mine promises to be a great success. Under the supervision of European miners, and with the aid of powerful machinery, a hundred tons of coal are being landed on the surface daily, and the manager reports sufficient fuel burning out to hourly as much as four hundred tons per diem. The shaft is 150 feet deep, and there are two seams of coal, 6 and 9 feet in thickness. The quantity of coal is inexhaustible, and the quality is simply super-excellent. The development of this mine must preclude the necessity in future of importing any foreign soft coal on this coast.

FIRE AT YOKOHAMA.

The steamer *Nymph*, which arrived here yesterday from Yokohama, brings news of the large fires at that port on the morning of the 13th instant. Between nine and ten o'clock one was observed from the steamer, and shortly afterwards another was reported from a different point. Both were large fires, and one of them proved to be on the premises of the Chartered Mercantile Bank. The extent of damage done is not known, as the *Nymph* left for Hongkong early on the morning of the 19th.

POLICE INTELLIGENCE.

BEFORE C. MAY, ESQ.
January 29th.

THE GALATEA'S CARGO.

Four Chinamen were brought up and charged with receiving certain bonded goods, forming part of the cargo of the American ship *Galena*, from certain seamen, who are charged with plundering the same. One of these men was prosecuted and was said to be the one mentioned by the last witness in the case against Ballmon, on the 27th. They were remanded till to-morrow.

DRUNKENNESS.

David Brown, an old frequenter of the police court, was brought up for being drunk and incapable in the public streets, and was fined 50 cents.

REFUSAL TO PAY CHAIR HIRE.

Alexander Watt was charged with being drunk, and refusing to pay chair-hire. The chair had been engaged by him at 7 o'clock on the evening of the 28th, and he retained the chair the whole night, and he refused to pay it when it was given in glorious encampment at 8 o'clock. He was fined 30 cents, and charged to pay 60 cents to the chair coolie.

REFUSING TO QUIT WITHOUT LICENSE.

Ng-Ayan was charged on a warrant with retailing opium without a license. The information was laid by Tso-a-hang, an opium farmer, and on this warrant Ng-Ayan was arrested on information that he had opium from defendant in his shop, No. 31 Square-street, a small quantity of which was found in a cellar under the shop (two of them smoking) by the complainant, in the presence of the defendant. The defence turned on the man's title to sell (denied.) The defendant was fined $25, or by the informer, $50. Defendant was fined $25, or by the informer. Defendant was fined $25, or two months' imprisonment with hard labour.

The information in the former case also included Lum-a-chun, of 14, Taipingshan-street, against whom the informer, Tso-a-hang, had also bought opium, and there were a number of the usual paraphernalia of opium smoking, such as lamps, pipes, &c., found on the premises. Fined $25, or two months' imprisonment with hard labour.

FIGHTING AND DISTURBANCE.

Tse-a-lan, Chun-a-poo, and Lee-a-muh, were charged with fighting and creating a disturbance on the streets. It turned out, however, that the first man had nothing to do with the matter, and he was discharged. The other two were fined 25 Sents each.

ASSAULT.

Cheong-asaow summoned Wo Government boatmen for an assault committed near Sowkeewan. Complainant stated he had been walked over and driven ashore, which these men had spread out to dry, thereby cracking the wrath of those who had wasned it.

His Worship said that if they had been ordinary boatmen he should have fined them only 50 cents each, but inasmuch as they were Government boatmen he would make a distinction. Fined $1 each, and cautioned.

NUISANCE.

Six occupants of houses in Market-street were summoned for having the fronts of their dwellings in a filthy state. They had been cleaned up since the summons was served. Fined 25 cents each.

There were three other similar cases to the above.

VERY ABUSIVE LANGUAGE.

Mr. F. Ribeiro, Jr., clerk to the Hongkong Hotel, charged Mr. George Lawry, bar-keeper at the said Hotel, with having called him a ——, and threatening him with the terrible visitation of breaking his head. A Lascar's connection between the parties had been considered by the Court, and both the complainant and defendant were called on the envelope. Under the cover the complainant had written as follows:—"Will you give apologise written as follows:—"Will you give apologise or not? Ribeiro." Defendant had replied, "No," without being particularly verbose. "No." Defendant in court denied both charges.

Defendant.—I do.

Did you threaten to break his head?

No.

Would you have apologised if you had called him a ——, and threatened to break his head?

Decidedly.

Case dismissed.

NAGASAKI.

The *Post* goes bringing dates from the above port to the 22nd inst. The *Nagasaki Shipping List* of that date notices as a curious incident that both the *Governor Higginson* and the *Jerboa* steamers, which were sent away with the native Christians, after discharging their passengers and cargo, struck upon rocks, the former near Spex Straits and the latter near Hirado. The Japanese firmly believe it is a punishment from God. The same paper it is stated that the steamer *Coila*, leaving for Hiogo one hundred exiled Christians. The *Nagasaki Express*, says that the matter of the deportation of the Christians is so carefully manifested by the Japanese officials, that uncertainty and embarrassment are found at every turn.

THE CHAMBER OF COMMERCE MEETING.

The special Meeting of the Chamber of Commerce called for the purpose of taking into consideration the proposed expedition of Mr. M. Moss into the South of China, was held yesterday afternoon. There were present, Hon. Wm. Keswick, chairman, Hon. F. B. Taylor, Messrs. Zimmern, Pyke, Walker, Bellilios, Vogel, Molachy, Andre, Jones, Coughtrie, Aug. Heard, Arthur and Davis.

The SECRETARY having read the notice convening the meeting, the CHAIRMAN remarked that the subject before the meeting had already been before the Chamber, but that on a previous occasion, after considerable discussion had taken place, it was thought desirable that the matter should have further information as to the expedition to the South of China in its bearings, before any final decision was come to on the matter. Since then, Mr. Moss had published a small pamphlet, and in which he had set out at length the objects of the proposed expedition, and the results to be obtained. The expedition was most important one, and the expense would be considerable, if it was carried out as proposed. The results to be obtained were of great importance, but they were such as would be long delayed in any direct good they might accomplish, instead of being of immediate benefit. With these considerations in view, and also bearing in mind the comparatively limited means of the Chamber, it was his opinion that for the present it would be much better to confine the route to be taken to a province more nearly attached to this colony, and more likely little immediate advantage could be gained by this expedition, the advantages being such as would be felt and realized in the future. As would be felt and realized in the future. but nevertheless they were important in view of the future Government policy to be pursued in China. He thought the meeting should be very careful how they granted with the funds of the community, and it should not be deprived of the only means it possessed without due care and consideration. He hoped there would be the fullest discussion on the subject.

Mr. MEREDITH said that he thought the general opinion was not at all in favor of this expedition, one of the great objections to it being that Mr. Moss was totally unacquainted with the Chinese language. He must, therefore, be entirely dependent upon interpreters for all the information he could get, and it was well known what trouble was experienced from these, even where every facility was given. Even if such an expedition as was proposed should be undertaken by a person understanding Chinese, it would be a work of years of very hard labour to obtain results that could in any way be called satisfactory. He therefore begged leave to offer the following resolution:—"That the expedition of Mr. Moss be not carried out at present."

Mr. DEBIANCO said he had much pleasure in seconding this proposition. He did not mean to infer that if a proper person could be found it would be well and advisable to fit out an expedition, but Mr. Moss was wholly unequal to the task. The Chinese language, and, therefore, he thought the expedition had better be deferred until some proper person could be found possible, from North and South. With regard to the forwarding of samples, there would be no difficulty, as it had repeatedly been done before in the same manner.

REMARKS he begged to concur in the resolution now before the meeting.

Mr. DEBIANCO thought this new plan all the more feasible, because Mr. Moss had already framed a very full series of questions which might be used, with one or two exceptions, which he thought scarcely adapted to be addressed to a missionary.

Mr PYKE here rose and said that no doubt the remarks of Mr. Bellanco were very facetious and amusing, but he regretted very much that Mr. Moss's previous career should have been brought forward to-day, (applause). This gentleman had been very successful in conducting the work done in class. The student has this less encumbered to the Chamber and to place his own before the members. If the Chamber did not wish to send Mr. Moss, he thought it would have been well out at all the thing. It required a man of very great tact, &c., to undertake such an expedition as the one proposed, and he must confess that these were not qualities possessed by Mr. Moss. This gentleman by quoting before the public in this manner, had invited discussion, and he did not therefore see why the members of the Chamber should not speak out their minds. Mr. Moss was ready to give up the antecedents of his own accord, remarks upon Mr. Moss's action at one period of his career in Japan. The Chairman at once declared he was in Japan at the time of the occurrence, and he felt bound, in the interests of justice, to say that he was opinion that in this matter, Mr. Moss had been a martyr to a course of proceeding antagonistic to the liberty of every foreigner in that country, and that this blame should be cast on those who brought him into that position, and who deserved to be strictly censured. The action of the Chairman in making this declaration is deserving of the highest praise, and cannot fail to be appreciated, no less as being highly creditable to his sense of honour, than as the means of removing a hard and false impression, which still existed in some quarters with regard to the occurrence.

ence and powerlessness for good or gen., like ourselves, without any official station in an atmosphere so charged with officialism as that of the Yamen, and thinking it desirable that we should be placed in such a position as was necessary to give us some voice and weight in the control and regulation of the studies, we the control and regulation of the studies, we did by way of supplement make the suggestion that a literal rank should be granted to us. But we did not ask to be made magistrates, as our critic in his ignorance of things Chinese supposes. A very elementary knowledge of Chinese matters would have prevented this making the ridiculous blunder of supposing that a button of the fifth rank carries with it necessarily the functions and powers of a magistrate. The employés of the Arsenal is a case in point. Messrs. Fall and Stevenson, consul at Shanghai, Messrs. Fall and Stevenson, some time ago got buttons of the fourth rank, that is the rank of Taotai; but neither of these gentlemen, as far as I know, exercises the functions of a Taotai. Several Commissioners of Customs have lately got buttons of the fifth rank, but I have not heard of their wielding the rank, but I have not heard of their wielding the power of prefects. Mr. Hart has, or has had, the rank of Judge of Assize, but he has never put on the black cap, and does not wish to. The Chinese teachers with whom we are daily confronted in the Yamen, have official buttons of the fifth grade), but this does not make them magistrates. It simply gives them the status of gentlemen, and by bestowing dignity to their position, it creates additional claims to the respect and obedience of their people. And it is difficult to see why the Professors of the literature and science of Europe should occupy a subordinate and inferior position to the native teachers. Sir Rutherford Alcock, who is judge of a rate higher than that of our critic (pace tanti viri dixerim) once said to me—I do not profess to quote his exact words—I was of opinion that the foreign Professors should have a high rank in the Yamen; and they should be provided with the same means of going there with the same state and surrounding, that respectable Chinese officials affect." He is all very well for a person writing office." in the centre of Cockayndon to speak with elegant banality of these things as "childish puerilities." A button of the fifth rank is, in London, simply a bit of glass; in Peking it is a series with it respect and consideration; and these, sir, are things which few people affect to despise, except those to whom they have been denied.

Our second demand, according to the writer in the *Express*, was for "runners to precede our chairs." He might just as well have said we wanted a body guard of Gunchis. asked for a palace and a body guard of Gunchis. In Peking, as every one in China knows, only officials of the very highest rank, ministers of state, and heads of boards have the privilege of using chairs. It is not likely we would ask or permission to use chairs when Mr. Hart, from whom we hold our appointments, goes on his last promotion which gives him a red button well. I believe, entitle him to a chair) in a sort. The "runners" exist only in our critic's head. Mr. L. Hooker and Mr. C. W. Stronbrg, have been authorized to sign our Firm per procuration.

THE PERFECTION OF PREPARED COCOA.
MARAVILLA COCOA
Sole Proprietors—TAYLOR BROTHERS, London.
THE COCOA (or CACAO) of MARAVILLA is the true THEOBROMA of LINNÆUS, Cocoa is indigenous to South America, of which Maravilla is a favoured portion. TAYLOR BROTHERS having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their soluble principle and elaborate machinery, produced what is so undeniably the perfection of prepared Cocoa, that it has not only secured the preference of homœopaths and cocoa drinkers generally, but many who had hitherto not found any preparation to suit them, have, after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.
"A SUCCESS UNPRECEDENTED."
See following Extract from the *Globe* of May 14, 1868.
"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs. Taylor Brothers discovered the extraordinary qualities of "Maravilla" Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Homœopaths and Invalids we could not recommend a more agreeable or valuable beverage."
Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original HOMŒOPATHIC COCOA and SOLUBLE CHOCOLATE.
